

Seyaa Jewels

LAB GROWN DIAMOND JEWELLERY

COMPANY PROFILE · 2026

We do not source
these pieces.
We make them.

A manufacturer of 14K gold jewellery set with lab-grown diamonds, operating our own factory in Surat with a team of over 100.

A manufacturer, not an intermediary

Seyaa Jewels manufactures 14K gold jewellery set with lab-grown diamonds. Casting, setting, polishing, quality control and design all happen in-house at our own factory in Surat — the city that cuts and polishes the majority of the world’s diamonds — rather than through subcontracted workshops.

A retailer buying from us is buying from the bench, not from a layer above it. That is what makes the price, the lead time and the answer to “can you make this in 200 pieces?” ours to give rather than ours to ask — and it is why a repeat order six months later matches the first one.

100+

PEOPLE

Cutters, setters, polishers, QC and design under one roof.

4

OFFICES

An order answered inside the buyer’s own working day.

191

DESIGNS IN STOCK

363 SKUs, each with its full specification published.

IGI

CERTIFIED

Supplied with independent laboratory certification.

THE FACTORY

Surat, India

Our own floor. Nothing is passed to a workshop we do not control.

Specified to the stone

Carat weight, stone count, individual stone size, metal weight and finish, per SKU.

E–F · VVS–VS

Colourless and eye-clean. The grade band every piece is held to.

191 designs, 363 SKUs, six categories

172 of the 191 designs are made in more than one metal colour — white, yellow and rose — so a range fits a floor rather than a single case. The full catalogue, with photography and the complete specification for every SKU, is online.

Bracelets	48	Tennis 40 · Fancy & Mixed 7 · Bangles & Cuffs 1
Stud Earrings	16	Basket Setting 8 · Martini Setting 8
Earrings	28	Hoops 17 · Drops & Dangles 7 · Halo & Fancy Studs 3 · Shaped 1
Rings	45	Eternity Bands 27 · Halo 1 · Solitaire 13 · Fancy 3 · Classic 1
Necklaces	22	Tennis 14 · Statement 8
Pendants	32	Hip-Hop & Character 8 · Solitaire 6 · Symbols & Letters 11 · Fancy & Mixed 2 · Classic Diamond 5

HOW WE TRADE

No

MINIMUM ORDER

One piece is an order. Test a line in a single window before committing a season to it.

7

WORKING DAYS

Dispatch for anything held in stock in India — most of this catalogue.

13

WORKING DAYS

Where the piece is customised. Our own floor, so the date is one we set.

INDEPENDENTLY GRADED

IGI certified

Our jewellery is supplied with certification from the International Gemological Institute. The grade on the certificate is not our word for it — which is the point of having one.

DISCLOSURE

Stated on every SKU

Origin, colour, clarity, carat weight and stone count are published for every piece, with the trade grading paired with plain English. Where lab-grown disclosure is a legal obligation, it is already written down.

WHO YOU WILL BE DEALING WITH

Leadership

Shaival Gandhi

CHIEF EXECUTIVE — SALES

Shaival leads Seyaa Jewels' sales across every market we serve and has spent more than two decades in the gem and jewellery trade. He works directly with retail chains, buying groups and importers — so a question about a specification, a lead time or a volume is answered by the person who can decide it, not relayed.
